Step aboard. Allow our crew to assist you in personally designing your Alaskan experience of a lifetime.

Whether you are seeking the majestic salmon, delicious halibut or one of our other trophy saltwater species, our experienced people are here to assist you in making that dream come true.

On any given day, you will discover an abundance of marine mammals - humpback, orca whales, and rafts of sea otters may be viewed. Sitka is a photographer's paradise! Ask us about our natural wildlife trips.

Upon request, you can run the Inside Passage which is bordered on both sides by the Tongass National Forest. Along the way to our crabbing and shrimping grounds, you may observe whales, Sitka Black Tail Deer, bald eagles and an occasional brown bear.

Nothing tastes better than sampling some of the shrimp and crab you have harvested! Upon your request, portions will be prepared for your enjoyment on our run back to Sitka.
